

## UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

339242

March 12, 1980

Mr. Ed Lecarreux, President  
Duane Marine Corporation  
26 Washington Street  
Perth Amboy, New Jersey 08861

Dear Mr. Lecarreux:

Attached is a copy of a report dated May 22, 1979 I prepared on the deficiencies of your SPCC Plan, as a result of my visits to your facility in May of 1979. Mr. Henry Gluckstern, an attorney with our Water Enforcement Branch, has asked me to assist you in bringing your facility into compliance with the SPCC regulations. After reading this report, contact me at 201-321-6652 to arrange a meeting at which I can answer any questions you may have. I would expect this phone call to be received no later than March 21, 1980.

If, as a result of our phone call, you wish to proceed to correct the outlined deficiencies without a meeting, I would expect that by May 1, 1980 a corrected and updated SPCC Plan be submitted to me for review. The Plan must address the additional facilities, procedures, methods and equipment not yet fully operational. In separate paragraphs then explain the details of installation and operational start-up.

After review of the updated Plan and a subsequent facility visit, we can work out an implementation schedule.

Sincerely yours,

Michael V. Polito  
Emergency Response & Hazardous Materials  
Inspection Branch
